Do your feet hurt? Perhaps you suffer from bunions, hammertoes, fallen arches, tired or aching feet, metatarsal pain, arthritis, heel pain, diabetic foot problems, or congenital deformities. Whatever your foot problem, there's a unique store in Ardmore, PA that can help you.

Called Foot Solutions, this store is located at 28 Rittenhouse Place. Owner Cathy Neely, a pedorthist (trained in shoe fitting and foot pathologies), has about 25 years' retail experience. Foot Solutions carries affordable, comfortable, and fashionable dress shoes, casual shoes, athletic shoes, and orthopedic shoes for men and women.

"Neither a typical shoe store nor a medical facility, we can help people with things that the typical shoe store can't and the typical doctor's office can't," says Cathy. "We spend 45-60 minutes with a new customer. We'll measure your feet. Then we'll utilize advanced computerized scanning technologies for pressure mapping, gait analysis, and an in-depth foot analysis. We focus particularly on

Cathy & the Pros at Foot Solutions at Ardmore take pride in improving the quality of your life!

custom arch supports and anatomically correct shoes, working to help those in pain, as well as those not experiencing pain but who want to continue doing what they enjoy and do it longer and better."

Health, wellness, and prevention are important words at Foot Solutions, where these professionals deal with the foot and foot problems. Customers praise their high rate of success in minimizing and/or totally

alleviating foot and foot-related pain and discomfort.

"Do you know that 90% of all people wear improperly-fitted shoes?" asks Cathy Neely, adding that most foot problems are caused or aggravated by improperly fitted shoes. Visit the Foot Solutions web site at www.footsolutions.com/ardmore and learn more about what this unique store can do for you.

Then stop in and schedule a Foot-

Steps Personal Evaluation. Trained footwear consultants will then fit your feet with specially designed inserts for your particular foot shape and problem. The extensively trained staff also has in-depth knowledge of proper shoe selection for customers who suffer from foot problems. "When you slip your custom-made insert into one of our extra-depth shoes, you'll be amazed at the difference," says Cathy. "Not only are our shoes designed to be therapeutic, they're also fashionable. Only you will know that you're wearing therapeutic shoes."

"Show us your feet and we'll show you a pain free day," say the trained professionals at Foot Solutions. Pain is no fun. Come in soon. Your feet will be glad you did!
